

To whom it may concern:

I wish to lend support to changing the rules regarding definition of DMAs. I live in Southwestern Colorado (Durango) and am not able to get TV from Denver. This is extremely important to me for several reasons. First, I don't get to hear the news about what is happening at the state level, this is very important during the election process. New Mexico politics is no concern of mine.

Secondly I don't shop or go to New Mexico. My children live in Denver and I want to know what is going on in the Front Range.

I like the first and third alternative proposals. Don't have the DMA's cross state lines. Please change this as soon as possible to ensure that the citizens of Colorado hear the news from their own state. I am tired of political processes being so entrenched!!

Sincerely,

Dave Smiley
